

Electronica Industriale

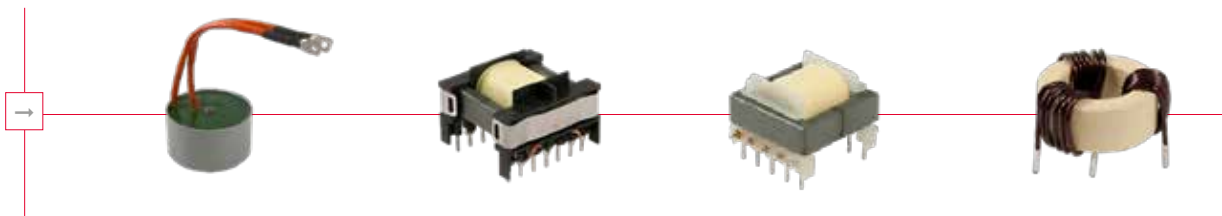

Accenditori per
caldaie murali a gas

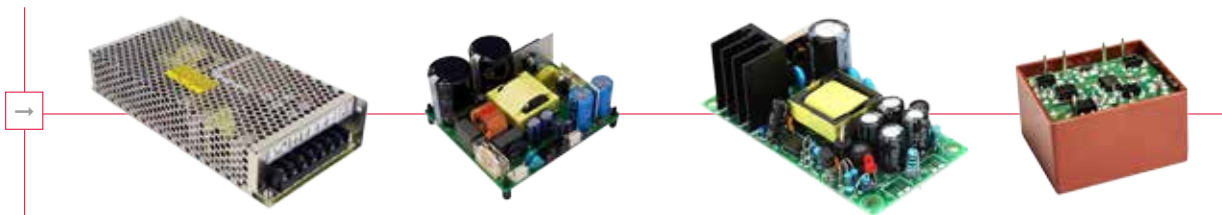

Induttanze
di modo comune

Induttanze PFC

Moduli switching

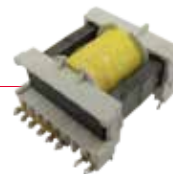

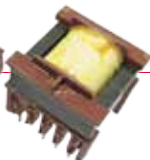

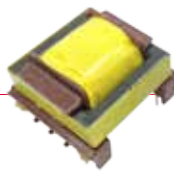

Sistemi di illuminazione a LED

Trasformatori lineari nudi e resinati

Trasformatori switching in ferrite

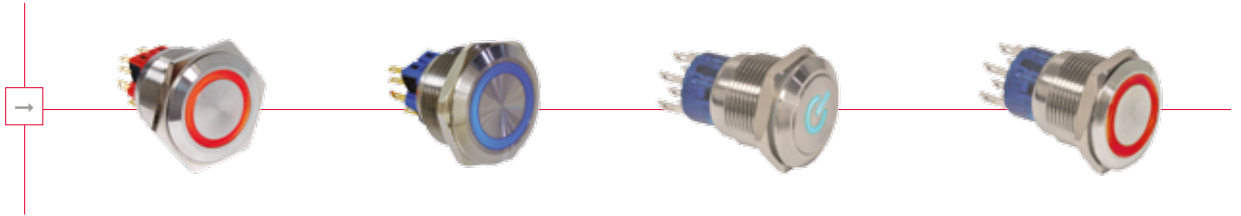

Trasformatori toroidali

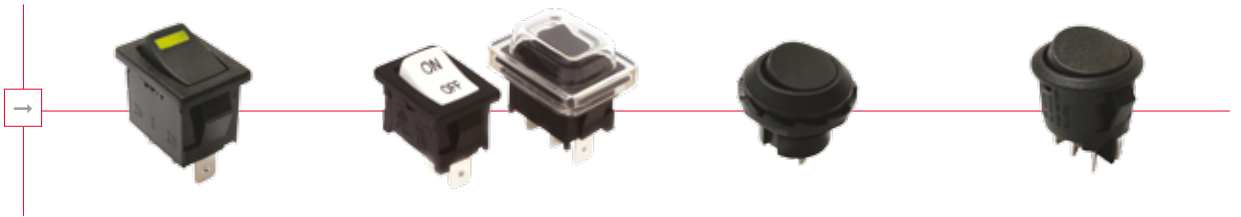

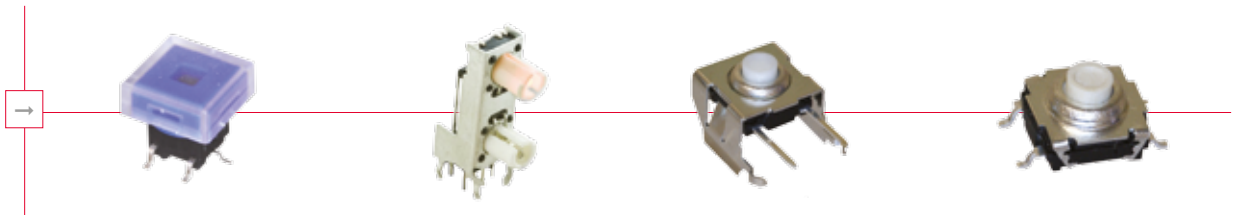

Pulsanti
Antivandalo

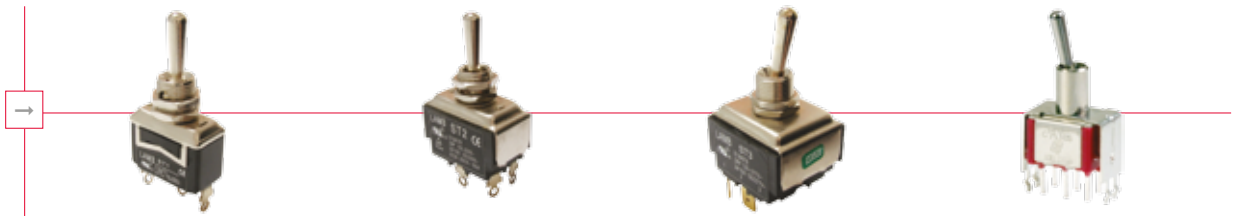

Rocker Switch

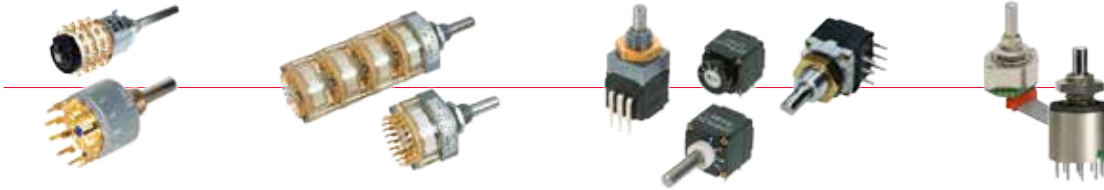

Tact Switch
Illuminati

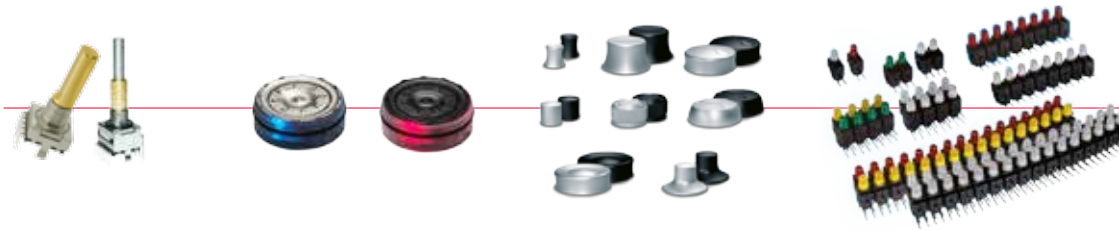

Toggle Switch

Commutatori Rotativi Meccanici e Codificati con uscite in BCD, Gray e Hex

Encoder Rotativi Incrementali Meccanici, manopole e LED

Subrack da 19" e pannelli lavorati e stampati

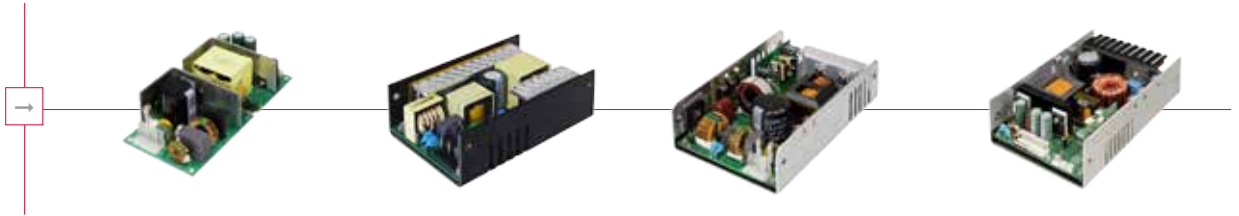

Design Enclosures

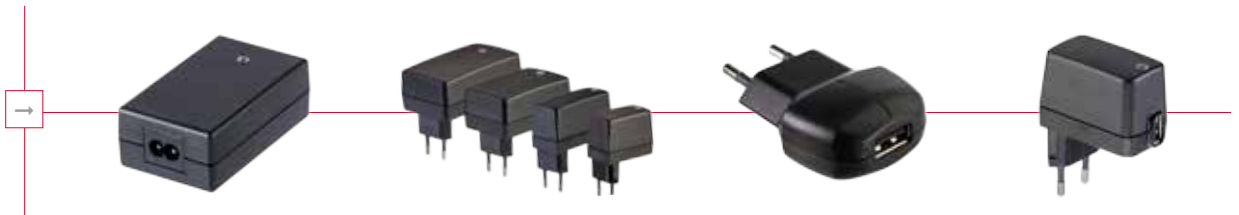

Alimentatori
Open Frame

Alimentatori per Led

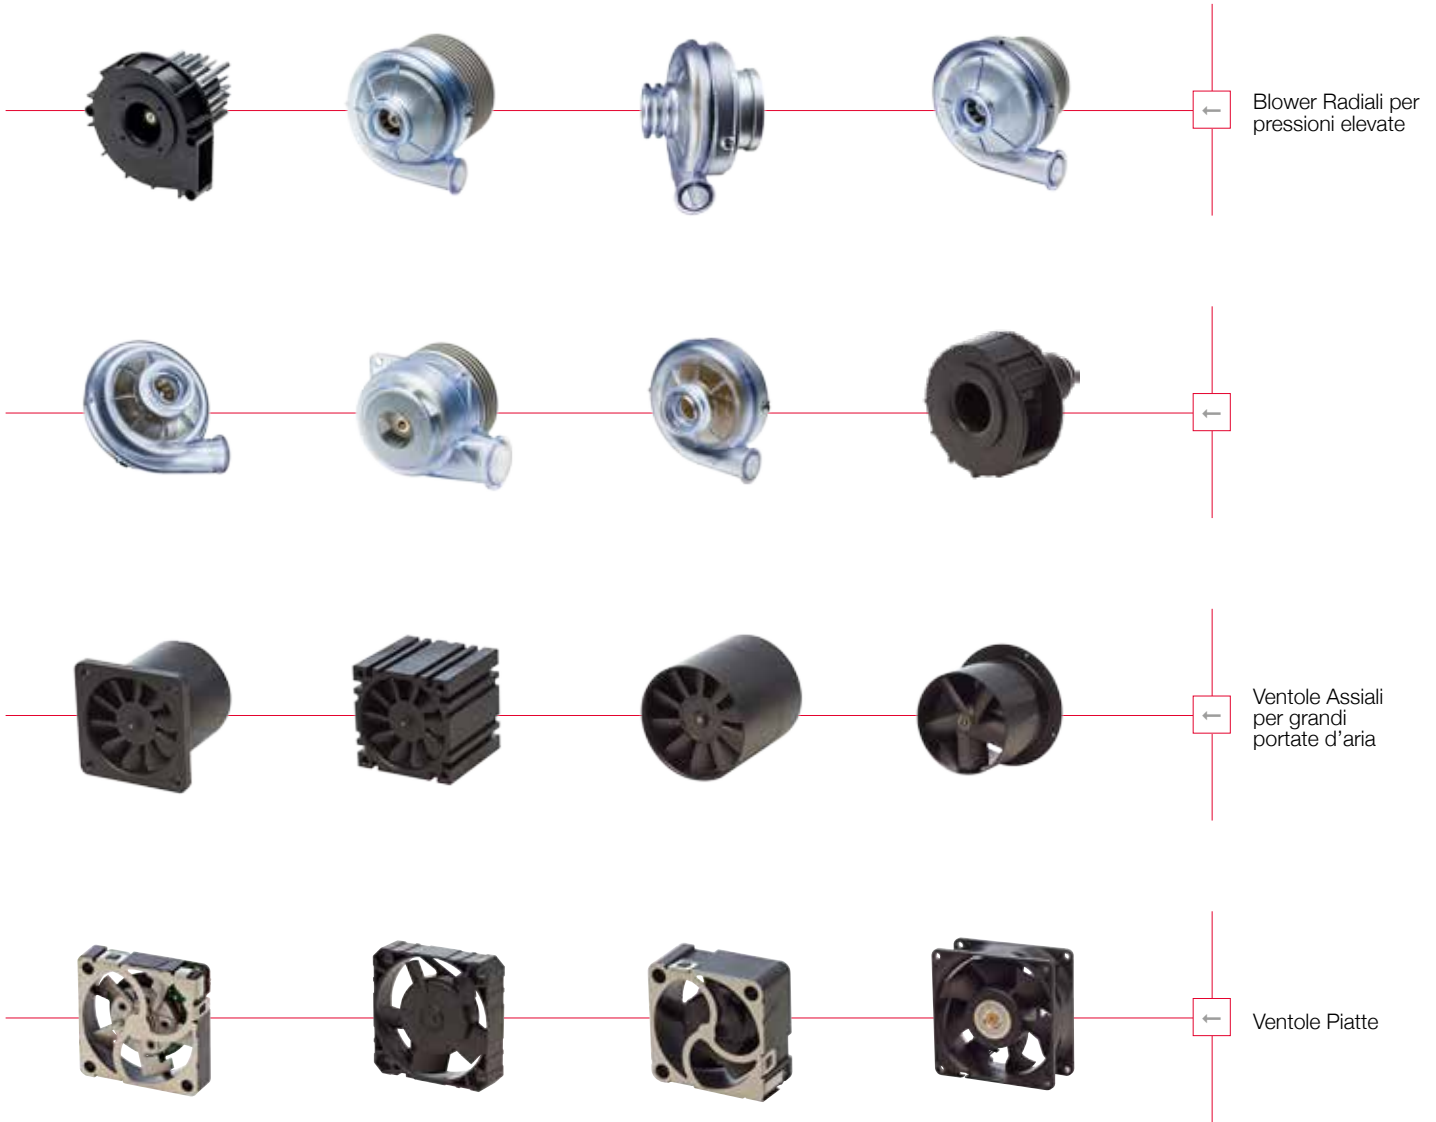

Alimentatori
switching I.T.E
e medicali

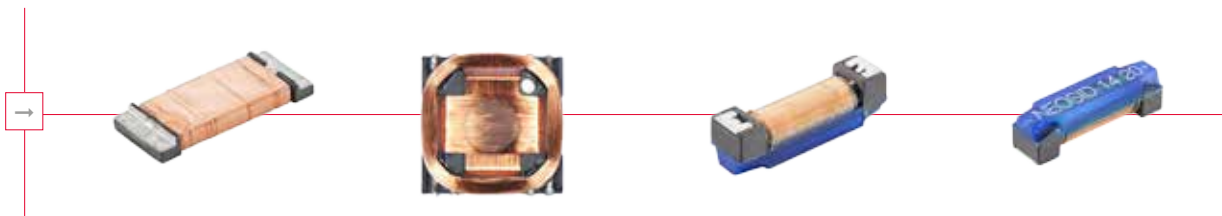

Caricabatteria
e batterie

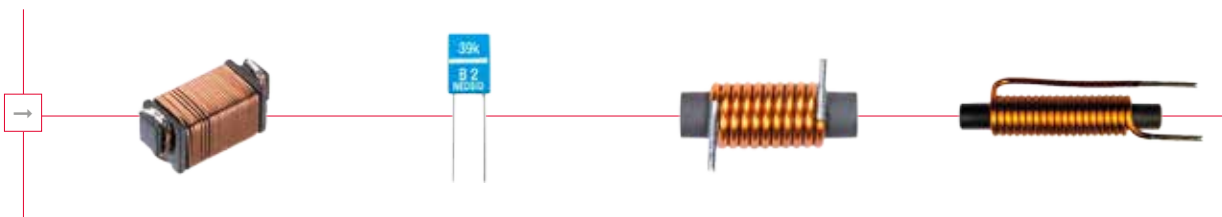

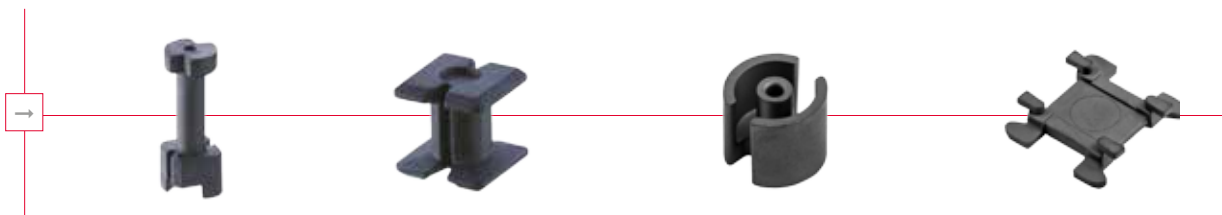

Antenne RFID

Avvolti e induttanze

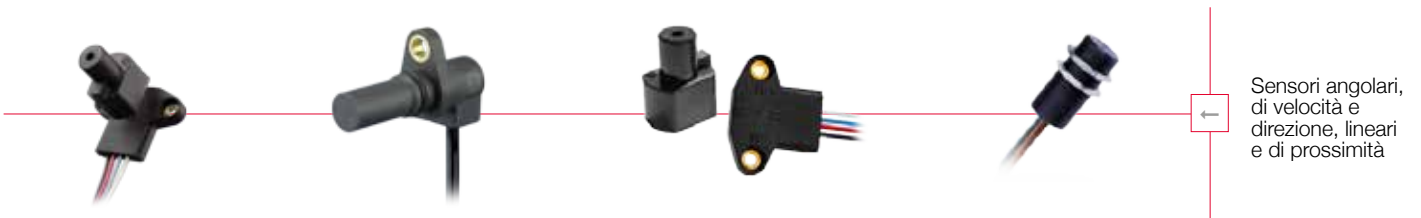

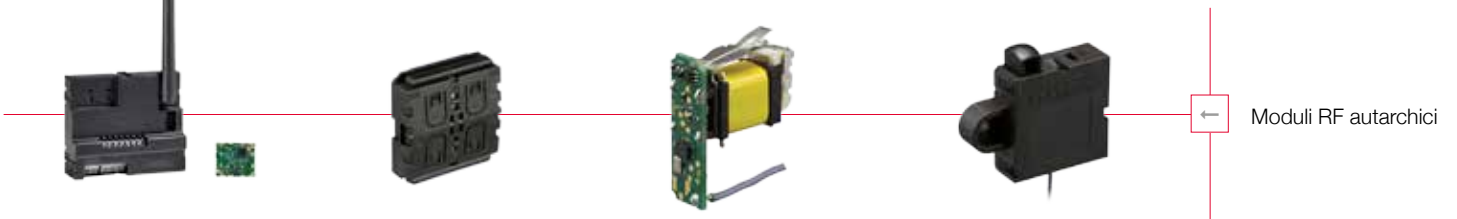

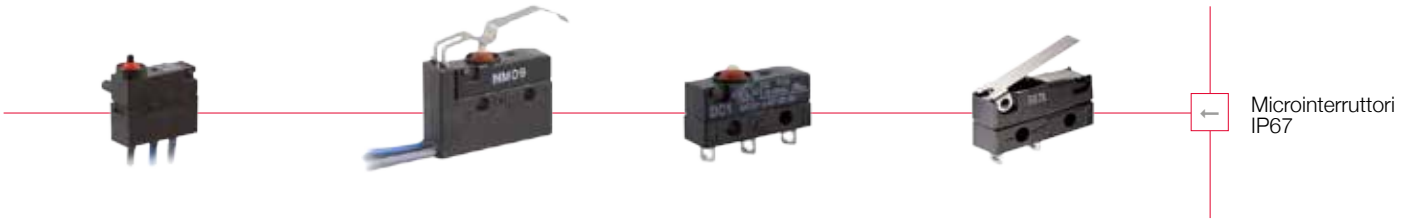

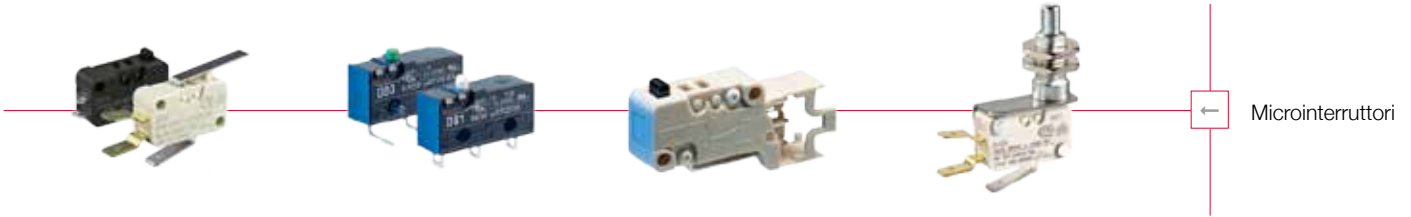

Ferriti

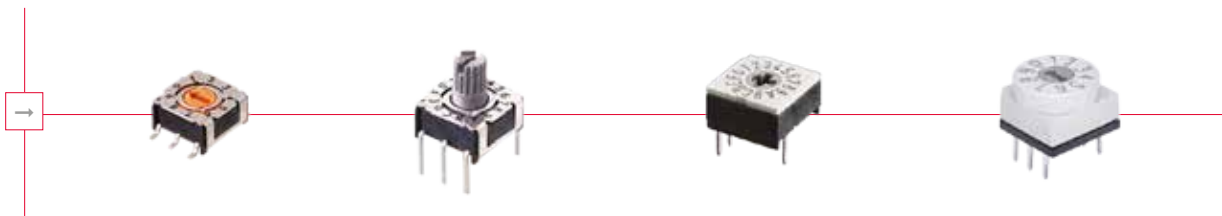

Tag per Rfid

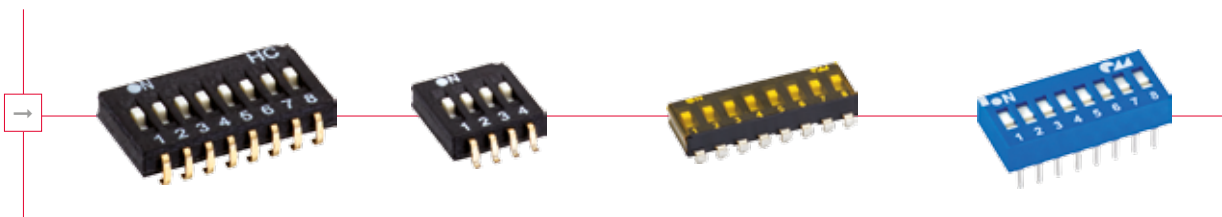

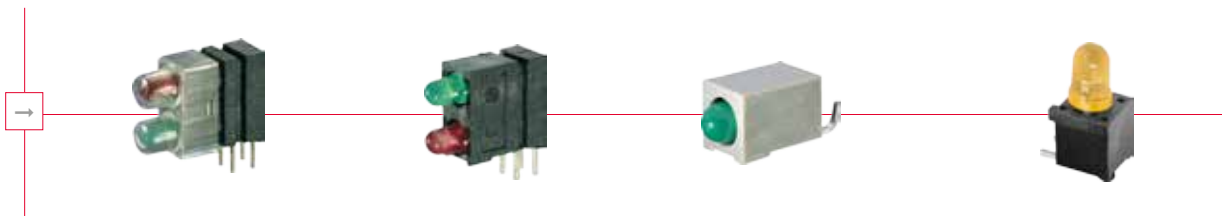

Commutatori Bcd
e Hex da scheda

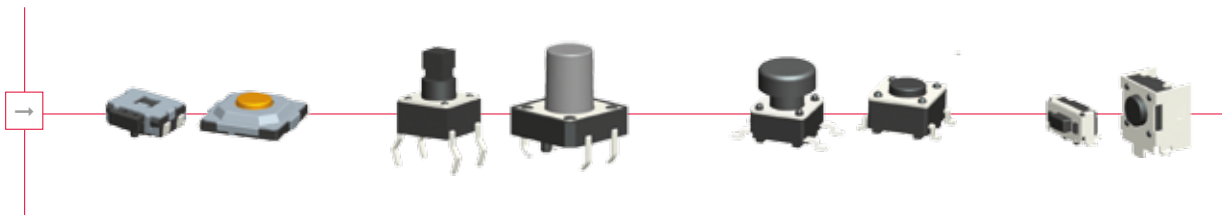

DIP switch

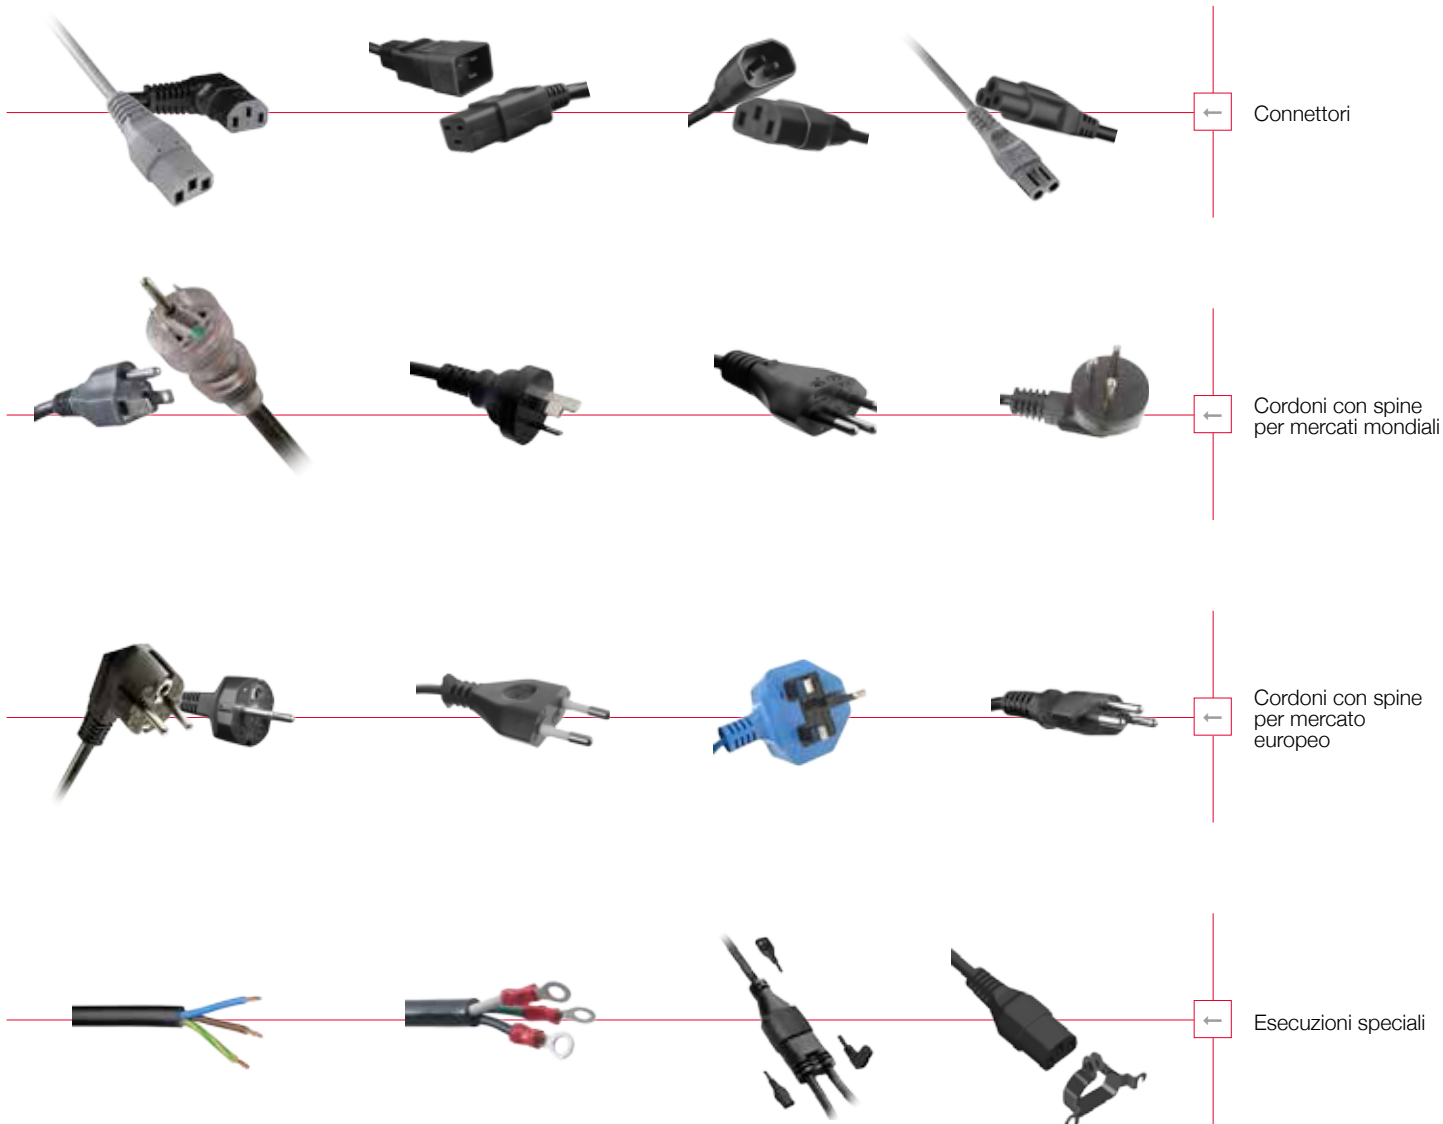

Led

Tact switch

Il Colore del Tuo Progetto

Da oltre 50 anni, Elsap è un'impresa dedita alla rappresentanza e alla distribuzione di componenti elettronici ed elettromeccanici passivi.

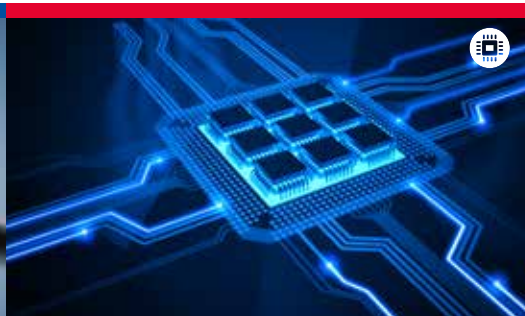

Dal riscaldamento all'elettrodomestico, dall'illuminazione all'automotive, dall'automazione industriale alla strumentazione, la nostra azienda supporta gruppi industriali affermati e nuove aziende dinamiche dalla fase di progettazione fino alla produzione.

Il nostro team si confronta quotidianamente con l'impegno di un servizio tecnico, commerciale e logistico che permetta ai nostri clienti di scegliere la soluzione migliore.

CONNESSIONI:

dal circuito stampato al pannello, di potenza e di segnale, per automazione industriale e alimentazione.

ELETTRONICA INDUSTRIALE:

case e switch professionali, soluzioni di raffreddamento e ventilazione, induttori, trasformatori e alimentatori.

SISTEMI ELETTROMECCANICI:

dispositivi di rilevamento, regolazione e controllo per elettrodomestici, macchine professionali, automazione degli edifici, processi di combustione.
